

Curriculum Vitae

Alina Nikolaievna Stadnitskaia was born at the 18th of July in 1974 in Moscow, USSR. After finishing polytechnic high school, she started to study Petroleum Geology in 1992 at the Lomonosov Moscow State University in Moscow, Russia. She received her Bachelor of Arts degree in Petroleum Geology and Geochemistry in 1997, and the Master of Science degree in Geology in 2000. In October 2000, she arrived to the Royal NIOZ for a probation period of one year due to receiving a fellowship of the President of the Russian Federation. In 2002, she received a grant from the Huygens Programme of the Netherlands Organization for International Cooperation in Higher Education (Nuffic) and continued her stay at the Royal NIOZ. From September 2003 she started her PhD project at the Royal NIOZ. From December 2003 until present, she was employed by the Royal NIOZ as a postdoctoral scientist within the ESF-funded project entitled “An integrated of seepage through the seabed of the Nile deep sea fan (2003-2006)” – MEDIFLUX. From March 2007 she will start her second postdoctoral research in the Royal NIOZ.
